Detailed Action

Response to Amendment

1. The reply filed on February 23, 2007 was applied to the following effect: Claims 9,31, and 32 were amended.

Reasons for Allowance

2. Claims 1-32 are allowed.
3. The following is an examiner's statement of reasons for allowance. This application is for a slider assembly. The prior art does not teach nor reasonably suggest, as recited in claims 1,9,15, and 31, a vibration absorber where the **weight is supported by a cantilever**.

These features, in combination with the other features of Claims 1,9,15, and 31, are not anticipated by, nor made obvious over, the prior art of record.

4. The closest prior art is Kasajima et al (USPN 6,751,062) shows a slider assembly, comprising: a slider having a magnetic head for reading and/or writing to a storage medium; and a vibration absorber operatively coupled (join, connect) to the slider for reducing mechanical vibrations of the slider, but does not show a vibration absorber where the **weight is supported by a cantilever**.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
